

[Call for paper] Future Design Workshop 2021, January 23-24

We are pleased to announce Future Design Workshop 2021, scheduled for January 23 and 24, 2021, that will be concerned with the realization of a social system that evokes the present generation's empathy for future generations. We expect to receive proposals from

- (1) those of you who are practicing (mainly the 23rd); and
- (2) those of you who are doing academic research (mainly on the 24th).

As for (1), we would welcome presentations such that you are doing some practices or in the process of doing practices, or are planning to do. Each presentation will last for 30 minutes, including a 15-minute report and a 15-minute discussion. In addition, the workshop will be held on Zoom.

This year's keynote speaker is Roman Krznaric, who will give us a talk around the end of the 23rd. He has published a very interesting book for the general public this summer, *The Good Ancestor: How to Think Long Term in a Short-Term World*. See also
